Dear Mr. Housel:

This is to acknowledge the receipt of  
the box containing the travelling exhibit, as well  
as the package of journals of primitive coins.

Thanking you for your prompt attention,  
I remain,

Very truly yours,

Curator.

Dear Mr. Housel:

Please pardon the delay in acknowledging the return of the Washington medals. These came all right several days ago but I was busy at the time and put them in the vault. I trust that the exhibition that you had was a success.

Very truly yours,

Dear Mr. Housel:

I am herewith enclosing correspondence and a rubbing of a medal inscribed Trenton Princeton 1774 and apparently it has a monogram in the center which might read FTTC. This badge apparently is of a better grade than the souvenir badges that are sold as souvenirs. Possibly it is a badge of some Society. Do you know anything about it and can you help me out. I am puzzled by the date 1774. As noted in the correspondence please return all of it. I beg to remain

Very sincerely yours,

Dear Friend Wood:-

Yours to hand enclosing correspondence  
and rubbing of Princeton - Trenton  
medal. Trenton Historical Society has  
fallen down on the matter but I  
am now following it up thru the  
research library of Princeton Univer-  
sity. Hope to be able to solve  
the problem and I am mighty glad  
of the opportunity.

Yours with regards

Dear Housel:

I am wondering whether or not you have been able to find anything about the Princeton-Trenton medal I wrote you about. Probably you have corresponded with the person who wrote to me?

*Dear Mr. Wood. I am still working on the medal. It looks now as if the medal was struck by Wm. Franklin. It has caused quite a furor among local historians. One of our nice collections is quite interested.*

Dear Mr. Wood:

I am sending you for your inspection  
three pieces of something, found in excavation of a C.W.A.  
project at or near Mt. Pelier, Vermont.

They seem to be a cross between a button  
and a cough drop. Do you think they might be some sort of  
Wampum or token money?

Very truly yours,

Wm. B. Housel.

Trenton, N. J.

Dear Mr. Housel:

I have never seen anything quite like the three pieces you enclose. I do not think they are Indian. My own idea of the subjects is that they are models to make molds for lead castings for buttons, and the one with the boss on it is probably for some sort of a pendant. They are most interesting. Why not write John M. Connor, Jr., at Metuchen and see what he knows about them.
